1. Introduction

1.1. Aim of Investigation

In this Digital Forensics Investigation the Cyber Forensics Analyst is working for a health regulatory agency on an international drug trafficking case. The analyst has been asked to perform a thorough investigation of the three network Packet CAPture (PCAP) files that the agency has exfiltrated from parties of interest.

In Capture One the analyst has been asked to document the names of the drugs, the amounts, how the files were encoded, and how the analyst was able to decode them. Details of any other files or data in the log are of no concern.

In Capture Two the analyst has been asked to decode the FTP traffic between two persons of interest and provide the investigation with evidence of what item the foreign contact received.

In Capture Three the investigation has requested to know the details of the conversation between two persons of interest and to retrieve the date and time they are planning to meet.

To guarantee the integrity of the evidence the information within the files must be exfiltrated in a forensically sound manner. To ensure that no tampering of the evidence has occurred the Message Digest 5 (MD5) hashing algorithm will be used this was selected because it will provide a unique "hash" for the evidence gathered, the network captures, and the evidence zip file. The hash values will also be checked regularly to confirm that no evidence has been corrupted.

1.2. Tools

Below is a complete list of the tools the analyst intends to use and a brief indication of their benefits to this investigation. A description and download link will also be provided in the event that any part of the investigation needs to be reproduced.

Tool	Description	Download link	Benefits to the investigation
Wireshark	Wireshark is an open source packet analysis tool. Which provides a GUI for analysis of packets and filtering on parameters such as IP, Port and Protocol (Wireshark, N.D)	https://www.wireshark.org/download.html	An industry standard free tool with excellent filtering and searching capacity at high speed. It's ability to file carve made the tool central to the investigation.
VMware Workstation	A virtualisation system. That allows for the running of multiple Virtualised Operating Systems on one host machine (Wmware, N.D)	https://www.vmware.com/uk/products/workstation-player/workstation-player-evaluation.html	An Industry standard paid tool which although expensive is the leading tool for running virtualised operating systems. It's ability to run Linux was necessary to the investigation.
Ubuntu	A free desktop Linux distribution (Canonical, ND)	https://ubuntu.com/download/desktop	Well developed free Linux Operating System that enabled analysis of the PCAPS to be undertaken. Selected over Kali Linux as it is more secure and stable.
Cat	A Linux/Unix command that allows for reading and concatenation of	Core Linux utility	This simple and easy to run command's ability to concatenate files to the standard output at

	multiple files (Simic, 2020)		high speed made it important for this investigation.
Cyber Chef	A opensource tool made for data analysis and transformation made by GCHQ (GCHQ, 2023)	https://cyberchef.org/	Cyber Chefs multifaceted ability made it purposeful to this investigation although mainly used to decode Base64 encoding.
zip / unzip	A Linux/Unix Command for unzipping files (linuxize.com, 2020)	Core Linux utility	A simple command line tool which quickly zipped/unzipped the files
Silent Eye	A Steganography analysis tool (silenteye@chorein.fr, 2010)	https://sourceforge.net/projects/silenteye/	A necessary tool to the investigation as it allowed the extraction of information hidden within images.
Firefox	A Free Web browser (The Mozilla Foundation, ND)	https://www.mozilla.org/en-GB/firefox/new/	The analyst's preferred web browser which is well known and has good functionality.
md5sum	A Linux/Unix hashing tool (msdeep14, 2019)	Core Linux utility	A simple easy to use command line tool which ensured the integrity of the evidence.
Libre office	A free document viewing system based on the open office standard (The Document Foundation, N.D)	https://www.libreoffice.org/download/download-libreoffice/	A standard tool within Ubuntu Linux which supports the "docx" standard making it possible to analyse these documents in Linux
Tineye	A online reverse image search tool. (Tineye, N.D)	https://tineye.com/	A image search engine which is popular amongst cyber security researchers for its ability to highlight the inconsistencies in Images.

Table 1 Tools utilised

2. Procedure

2.1. Investigation

An investigation of the three captures occurs in an VMware Ubuntu Linux environment, this was undertaken so as to ensure the captures were kept in an isolated clean environment where a fair and thorough investigation could occur. One tool (SilentEye) does not run within a modern Linux environment so had to be ran on the host machine a Microsoft Windows [Version 10.0.22621.2861]. The methodology undertaken was Obtain Strategize Collect Analyse Report (OSCAR) this enabled the analyst to discover the evidence by following a clear step by step procedure ensuring no evidence was missed.

Initially the three captures are downloaded to the virtual machine where the Message Digest 5 (MD5) hash values are calculated.

File Name	MD5 hash
Capture 1.pcap	9e13d6c7c5920007240eeb80f9c1f47e
Capture 2.pcap	cc211ce173f3b928b11e5f256f448788
Capture 3.pcap	cec76ac8f5e6bae30a27b1671ffbc11

Table 2 MD5 values of pcaps

Table 2 identifies the MD5 values of the three files after they have been unzipped. This can be used to ensure no tampering has occurred within the files.

2.2. Capture 1

Capture one is initially opened in Wireshark which identifies the capture began at 20/10/2023 at 20:18:01 and ended at 22/10/2023 at 06:23:52. In an initial analysis a communication over a Server Message Block 2 (SMB2) share was detected. A SMB share is commonly used for downloading and uploading files across an network to a central local server.

Figure 2-2 SMB Objects found in the capture by Wireshark

Figure 2-2 identifies the objects detected by Wireshark in the capture. Wireshark is able to quickly and efficiently traverse the full network capture looking for files downloaded. These objects exist in two main places 192.168.1.20 and DOG-WS. All items were exported to the evidence folder. This folder will be uploaded as an evidence zip file.

As LAPTOP-8K2DHPD7 is initially querying for the phrase "Substances" this is analysed first. The file- "%c%cSubstances%cDocuments%cEnter the WunChang%ctrack6.docx" from the SMB share was discovered to contain a large Base 64 string.

All files exported can be found in Appendix A- Capture 1 Files. The MD5 file hash of all files discovered is saved in the relevant evidence directory and the file of interest's hash is displayed below.

Filename	MD5 Hash
%c%cSubstances%cDocuments%cEnter the WunChang%ctrack6.docx	53f096da3050258ffb9b6f6116d7b5ce

--	--

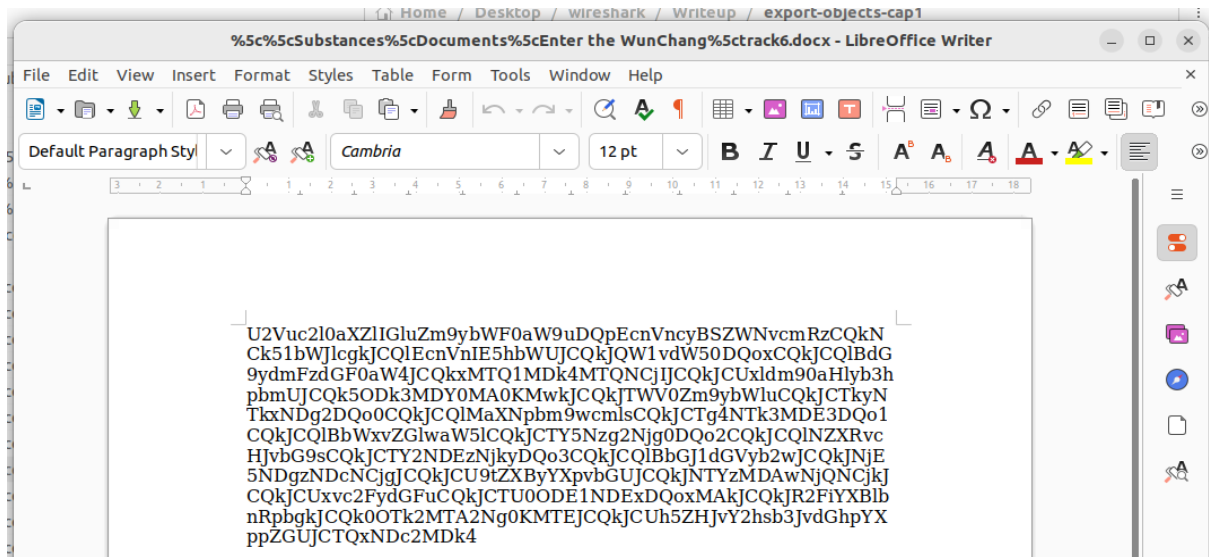

Figure 2-3 Encoded Contents

Figure 2-3 displays the content of the file which the analyst identified to likely be Base64 encoding due to its use of random upper and lowercase letters and numbers.

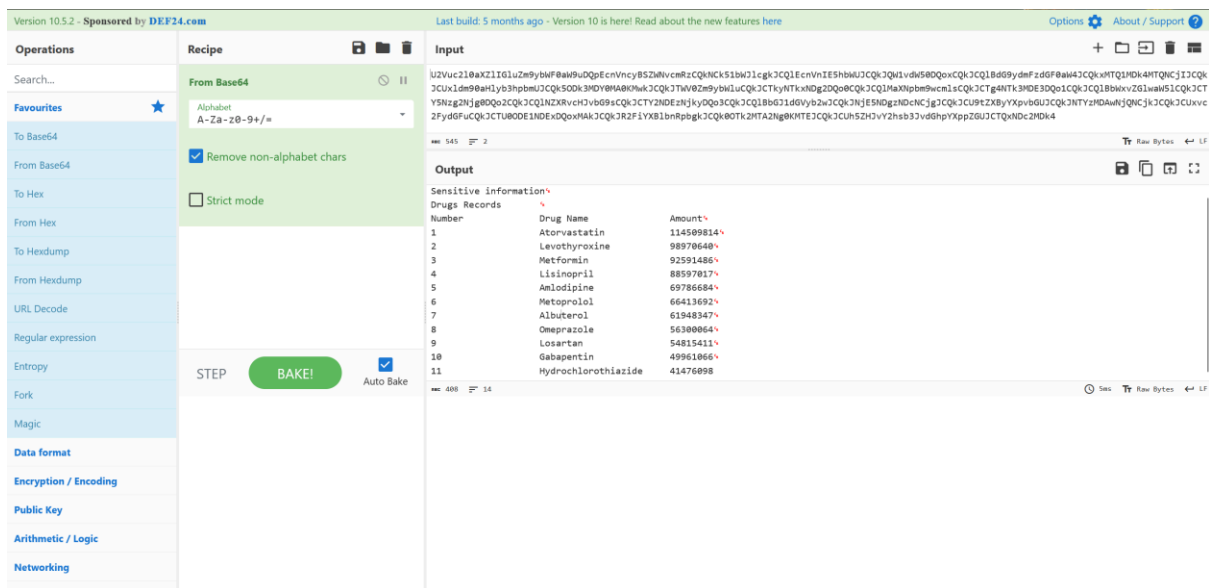

Figure 2-4 CyberChef Base64

In Figure 2-4 CyberChef (GCHQ, 2023) decodes the Base64 value. Revealing a heading and table of Drugs and Amount.

Sensitive information

Drugs Records

Number	Drug Name	Amount
1	Atorvastatin	114509814

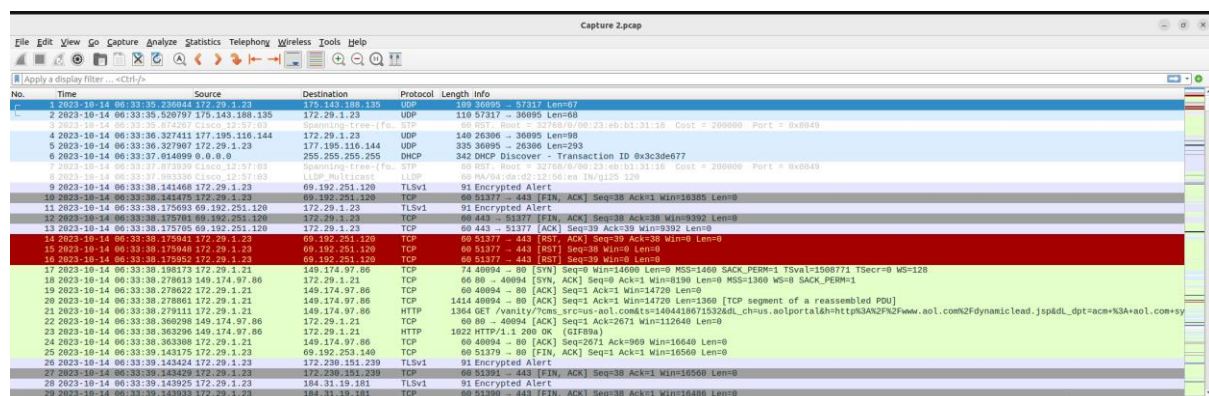

2	Levothyroxine	98970640
3	Metformin	92591486
4	Lisinopril	88597017
5	Amlodipine	69786684
6	Metoprolol	66413692
7	Albuterol	61948347
8	Omeprazole	56300064
9	Losartan	54815411
10	Gabapentin	49961066
11	Hydrochlorothiazide	41476098

Table 3 Drug Name and Value table

Table 3 identifies the list of drugs encoded in Base64. The analyst has successfully identified the required information so as with the guidelines of the report: “Details of any other files or data in the log are of no concern to us and need not be explained in any significant detail”. However the objects exported from Wireshark have been decoded and are included in appendix A – Capture 1 Files.

2.3. Capture 2

The investigation continues in Capture 2 in the same Ubuntu virtualised environment as Capture 1. The network traffic capture begins at 14/10/2023 at 06:33:35 and runs until 21/10/2023 at 21:08:03.

The image shows a Wireshark network traffic capture titled 'Capture 2.pcap'. The interface displays a list of captured packets in the packet list pane on the left. The selected packet is packet 14, which is a TCP segment from 192.168.1.100 to 192.168.1.101, port 80. The packet details pane on the right shows the structure of the packet, including Ethernet II, Internet Protocol Version 4, and Transmission Control Protocol. The packet bytes pane at the bottom shows the raw data of the packet.

No.	Time	Source	Destination	Protocol	Length	Info

Figure 2-5 Wireshark capture of Capture 2

Figure 2-5 shows the initial packets in the network capture. The investigation notes tell us they are interested in File Transport Protocol (FTP) traffic between two persons of interest. Initially this is filtered for in Wireshark and by following the Transport Control Protocol (TCP) stream the interaction with the FTP server is revealed in plaintext.

Figure 2-7 FTP Data stream

In figure 2-8 the analyst has applied the ftp-data filter to identify the packets where the zip files are contained and the destination IP address of the user.

Figure 2-8 3v0ke.zip, c0ll3t.zip, d3arth.zip, dr0id.zip

Figure 2-8/12 demonstrates the four “.zip” files being extracted by following the TCP stream, extracting the raw data, and saving the data as a zip file. The zips were then moved into the secure evidence folder with their hash values being generated as shown in Table 4.

File	MD5 hash
3v0ke.zip	3ca5e3ed94c2aa036a0570d0238c06bc
d3arth.zip	d8898d5e392b2fd5a1fa292abacb1ee3
c0ll3t.zip	e3cc8d3e5f3e99305099bb36c2a49016
dr0id.zip	54d8d273d0052f05d602a2fe26d484ab

Table 4 - .zip hashes

Next the export-zip folder was copied to analyse the contents of the “.zip” files

```
ubuntu@ubuntu-LTS-NS: ~/Desktop/wireshark/Writeup/export-zip (copy)
ubuntu@ubuntu-LTS-NS:~/Desktop/wireshark/Writeup/export-zip (copy)$ unzip 3v0ke.zip

  inflating: split4/kind.jpg
  inflating: split4/ll.jpg
  extracting: split4/simplify.jpg
ubuntu@ubuntu-LTS-NS:~/Desktop/wireshark/Writeup/export-zip (copy)$
```

Figure 2-8 .zip file extraction

The “.zip’s” are then extracted and opened this revealed the images appear to be corrupted or only partly complete. This lead the analyst to believe this may be a deconstructed image this was further backed up by the names of the possibly creating a phrase as shown in figure 2-9. The analyst went back to the investigation notes where it is stated that an Obi wan Kenobi quote may help.

More Obi-Wan Kenobi Quotes

112. "Obi-Wan Kenobi: A great leap forward often requires taking two steps back.

Anakin Skywalker: And sometimes, all it requires is the will to jump."

113. "Anakin, you must realize this is a fight you cannot win alone."

114. "You have allowed this dark lord to twist your mind, until now... until now you've become the very thing you swore to destroy."

115. "Yes, well, I took a lesson from Anakin and decided not to follow orders."

116. "I'll never understand how you can simplify these battles into some kind of game."

117. "You can kill me, but you will never destroy me. It takes strength to resist the dark side. Only the weak embrace it."

118. "Anakin Skywalker: Why do you even ask for my opinion? We never do things

Figure 2-9 Obi Wan Quotes (Roychoudhury, 2023)

By searching online for Obi wan Kenobi quotes figure 2-10 Identifies the correlating Obi-Wan quote from the website Kidal (Roychoudhury, 2023) this was found by studying the filenames to assemble

the first word and then searching for this word from within the website. This was used as the framework for the .jpg image.

```

ubuntu@ubuntu-LTS-NS:~/Desktop/wireshark/Writeup/export-zip (copy)/extract$
```

Figure 2-10 Extraction and Compiling

Next figure 2-11 identifies the extraction of the broken images to an extract folder and using the cat command the analyst was able to assemble the corresponding image to the Obi Wan Kenobi quote, this is then saved to “output.jpg”. The MD5 hash of each part of the image and “output.jpg” is saved in the evidence extract folder. The Output.jpg image hash is shown in the table below.

Name	MD5 Hash
output.jpg	a61c6ad82e46640100134dc79ef51e8b

Table 5 output.jpg hash

Figure 2-11 output.jpg

Figure 2-12 displays the “output.jpg” image. The image was then compared on Tineye (Tineye, N.D) a tool for image searching. When carefully scrutinised the size difference and image quality reduction suggested that data may be hidden in the image. This could be a data obfuscation technique called Steganography which is the process of hiding messages in other messages. SilentEye a Steganography tool was then selected to see if this was the case. To allow SilentEye to run The output.jpg was copied to the analysts host Windows machine.

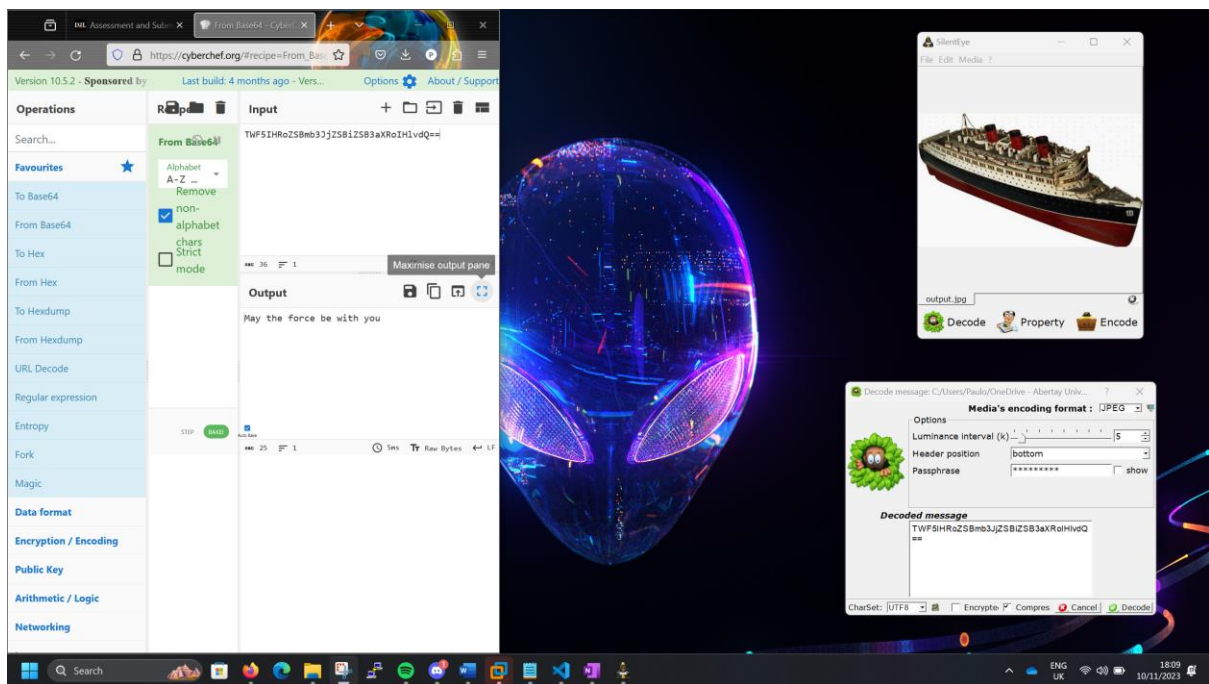

Figure 2-12 SilentEye and CyberChef

Figure 2-13 when SilentEye’s default passphrase was used it identified data did indeed exist within output.jpg. The double equals at the end of the decoded message indicated to the analyst that the message was Base64 encoded. This message is then put through CyberChef identifying the phrase “May the force be with you”.

In answer to the investigation notes capturing the phrase “May the force be with you” is sent to the foreign contact hidden within an deconstructed image within several zip files. The full image and hash values for the zip files can be found in Appendix B – Capture 2 Files.

2.4. Capture 3

The same Ubuntu Virtualised Environment used in Capture 1 and 2 is then used in Capture 3. The traffic capture begins on the 2/07/2014 at 17:38:50 and ends at 22/10/2023 at 17:56:49.

Figure 2-13 Capture 3 Traffic

Initially in figure 2-14 the analyst studied the network capture and identified a GET request with the URL the “GET /newchat/@@cht/log.html?_=1697993811406 HTTP/1.1” at packet 10024 by a user with an IP of 192.168.1.6 and a Webserver with an IP address of 192.168.1.20. The analyst identifies

HTTP has been chosen as the desired protocol for communication, this means anyone monitoring the connection can read it as there is no encryption present (Cloudflare, N.D).

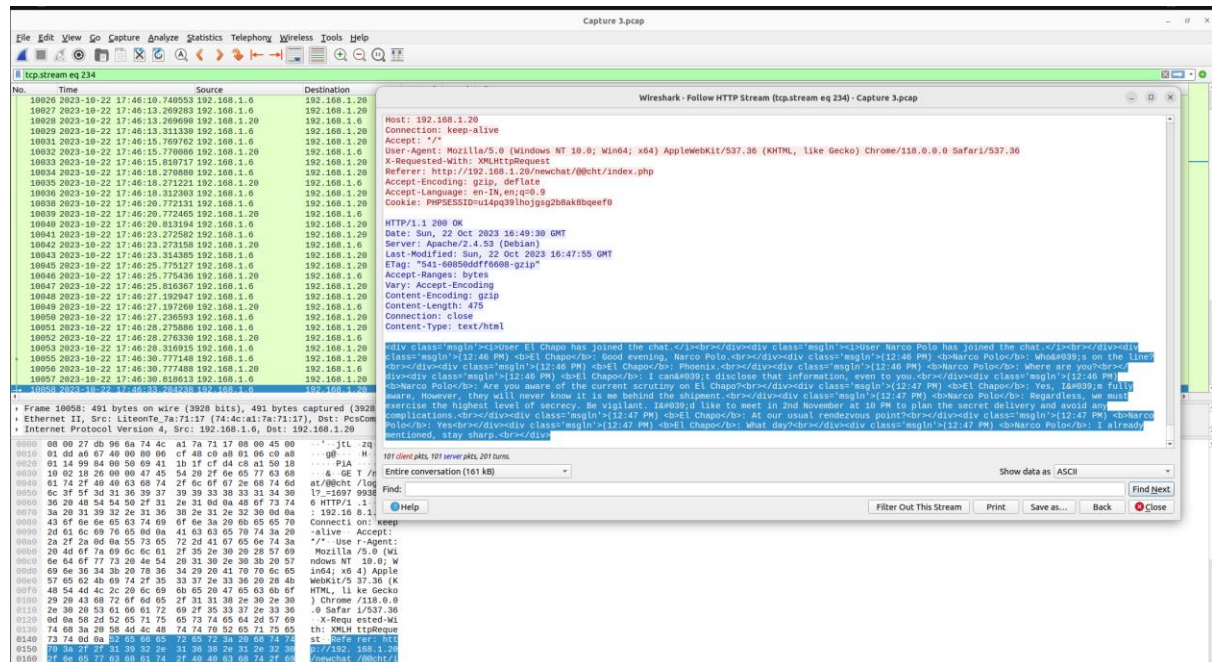

Figure 2-14 Capture 3.pcap HTML stream

After following the HTTP stream figure 2-15 identifies the HTML conversation between Narco Polo and El Chapo. This stream is saved and exported to the evidence folder. The MD5 value is saved to a file in the evidence directory and shown below. The full conversation can also be found in Appendix C- Capture 3 Files.

Name	MD5 Hash
httpStream	bdd24db30f6505f405ca47383503d4e4

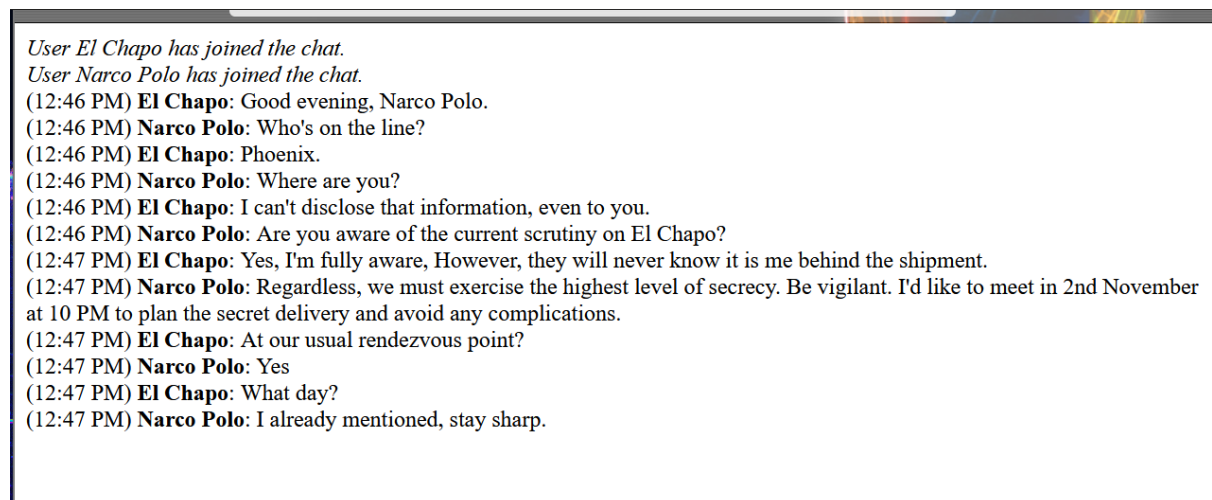

Figure 2-15 Important Information

The final message sent from the server contained in the HTTP stream is exported to a text document and saved. Figure 2-16 shows the full conversation between the two persons of interest, they disclose the date and time which is the 2nd November at 10pm.

Through further analysis of the PCAP, coordinates are identified these are being sent to a website within the network capture from an IP address of 192.168.1.5 to an URL of a.jumtap.com

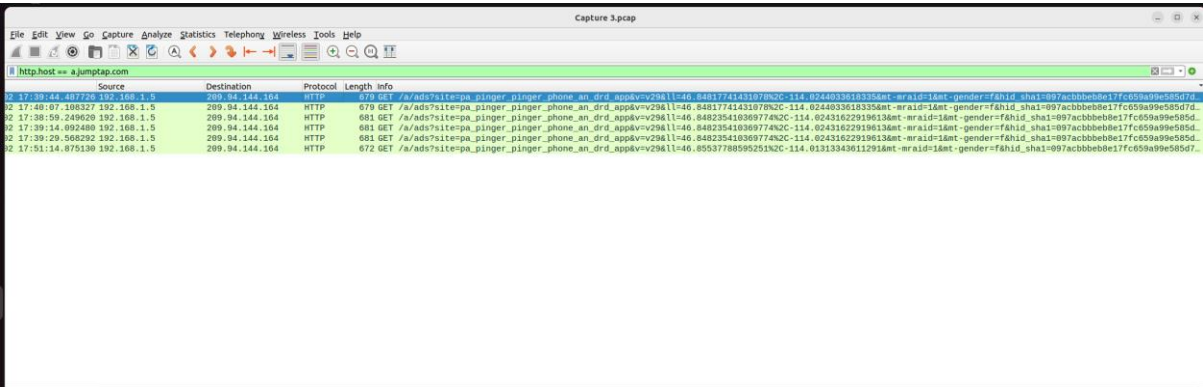

Figure 2-16 map API requests

Figure 2-17 shows the filtered network capture of “http.host == a.jumtap.com” this identifies 6 packets which expose the location of a device with an IP address of 192.168.1.5. The packets were extracted from the capture and saved to a Comma Separated Value (CSV) file . A MD5 hash for the packets is saved in the evidence folder and displayed below.

Name	MD5 Hash
Location Data.csv	ad8cea374305e5b3e60e24a47d1775ee

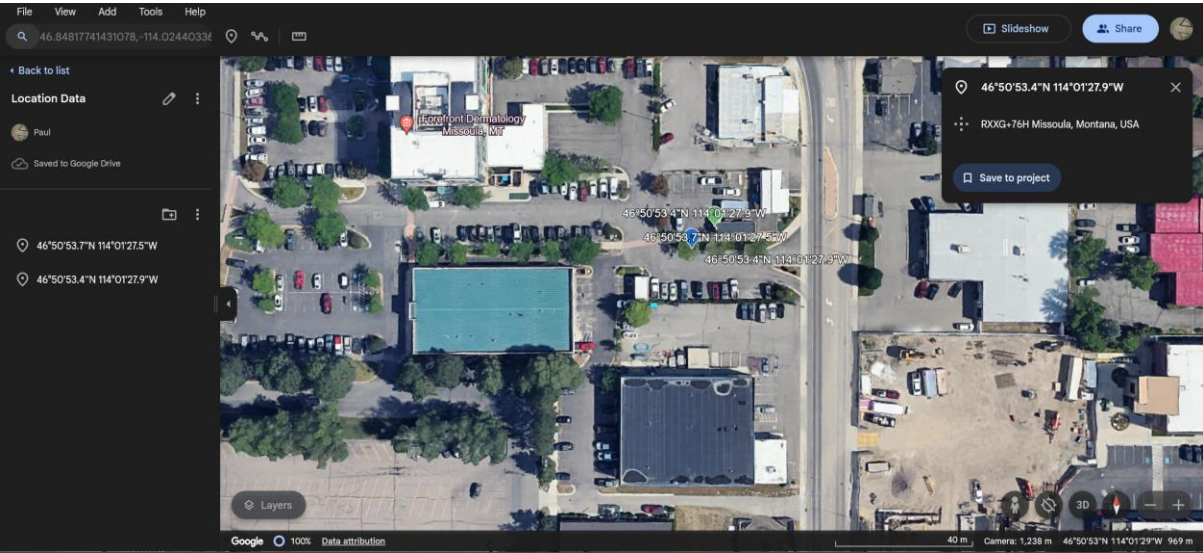

Figure 2-17 Location Data

The location data is then extracted and plotted on Google Maps. Figure 2-18 shows the two different locations in the requests displayed on a map. The location is in Missoula, Montana, USA and appears to be a car park. This may have no relation to the investigation however may give an approximate location of the Persons of Interest.

2.5. Closing

The evidence relating to each Capture when discovered was written to the relevant evidence directory. Each piece of evidence when discovered was given a MD5 hash value to ensure no

tampering took place this can be viewed in the relevant associated directory within the evidence ".zip". After all three captures were analysed the three investigation PCAPS were hashed again to check they matched the original evidence.

File Name	MD5 hash
Capture 1.pcap	9e13d6c7c5920007240eeb80f9c1f47e
Capture 2.pcap	cc211ce173f3b928b11e5f256f448788
Capture 3.pcap	cec76ac8f5e6bae30a27b1671fffb11

As the hashes had not changed the files were added to the evidence folder. The folder was then zipped and hashed to allow the investigation team to validate the evidence before it came to court. The hash is as follows:

File Name	MD5 Hash
Evidence.zip	4cb2ca214e3be765a35e097fe7b796b1

3. Discussion

3.1. Critical Evaluation

3.1.1. Capture 1

The first challenge that was encountered was how to effectively filter out irrelevant files. Having decided on the word "Substance" as a suitable filter Wireshark was selected as a packet analysis tool. Wireshark's ability to quickly scan network traffic for files relating to the investigation as well as it's easy to follow documentation made it a reliable tool. By analysing all of the remaining files using CyberChef the analyst was able to find the table of drugs, as the encoding on the message was Base64 which was easily detected and decoded by CyberChef. CyberChef a tool developed by GCHQ the UK's governments cybersecurity and communication headquarters was an appropriate tool for this investigation.

Another consideration was the size of Capture 1, but due to the lack of encryption on the SMB share and queries the LAPTOP-8K2DHPD7 made, resulted in the analyst having adequate information to find the evidence and therefore this did not hinder the retrieval of the relevant information.

3.1.2. Capture 2

Capture 2 was more challenging than Capture 1 for the analyst because several anti-forensic techniques were present within the network capture making it harder to discover the quote "May the force be with you". The anti-forensic techniques used included disassembling the image across several ".zip" files, steganography which is hiding of information within an image, and encoding the data with Base64. Wireshark was once again an invaluable tool, as its ability to quickly filter traffic allowed the analyst to find the ".zip" files. The image was deconstructed across the several ".zip" files and required to be concatenated. The researchers knowledge of Linux commands ultimately proved helpful in reassembling the image. The key phrase here was the Obi Wan Kenobi quote as it facilitated the cat command to reassemble the image. Initially the analyst believed this to be the end of this part of the investigation. However after further more detailed analysis using Tineye the image was searched online, this discovered that it did not match similar images found online which suggested to the analyst that steganography had occurred. SilentEye was selected as research stated it to be a useful steganography tool. It successfully extracted the information from the image and

CyberChef decoded the Base64 message. The analyst was satisfied that this stage of the investigation was complete.

3.1.3. Capture 3

The ability of Wireshark to follow HTTP streams in large files overcame the main challenge in this network capture. By using the main learning from Capture 1 and 2, that the data thus far had been unencrypted and visible in plaintext, the analyst quickly identified the conversation of interest and exported this to the evidence folder. One further piece of information which may be useful to the investigation was the discovery of a location. This was found by a thorough manual analysis of the network traffic which identified coordinates being sent in a URL. When this address was filtered it discovered two potential locations of interest to the investigation. Google earth enabled the investigator to provide an accurate location on a map.

3.2. Reflection

Malicious hackers interfering or impeding digital forensics investigations is a risk that all cyber forensics analysts should be cognisant of. Obfuscation techniques were prevalent throughout the captures which make it difficult for investigators by increasing the amount of time needed to extract the relevant information. In this investigation obfuscation techniques such as encoding data in Base64, fragmented files, and steganography were all used to impede the analyst.

In other investigations the analyst may identify hackers running specialist software which sits dormant until a device is scanned forensically. When this is detected it may erase the evidence contained on the hard drive making it impossible to analyse.

End to end encryption is another issue in network digital forensic investigations, as communication over encrypted channels cannot be easily deciphered and could be used by threat actors to hide information.

2. ENFORCEMENT OF CHESS RULES

In the event of a breach of the rules a penalty can be imposed at the arbiter's discretion.

%5c%5cSubstances%5cDocuments%5cChess Boxing%5cRules 3.docx

Base64 Decode

3. PENALTIES FOR RULE BREACHES

A chess penalty could take the form of:

• The offence will act as a tie-break if both the boxing and chess are drawn. This is the minimum (default) penalty and applies if there is no other penalty.

• 30 seconds is subtracted from the offender's clock.

• Forfeit of the bout. This could occur for a serious disciplinary offence, deliberate foul play or a repeated breach (e.g. a total of 3 illegal moves).

%5c%5cSubstances%5cDocuments%5cChess Boxing%5cRules 4.docx

Base64 Decode

4. CHESS CLOCK MALFUNCTION

In the unlikely event the electronic chess clock ceases to operate during a chess round, the arbiter will do one of following, depending on the estimated disruption to the players and spectators:

• Stop the clock and resolve the problem.

• Stop the clock and replace it with a new clock. This action is most likely if there is a repeated malfunction, or it's one of the later chess rounds where a player is short of time.

%5c%5cSubstances%5cDocuments%5cChess Boxing%5cRules 6.docx

Base64 Decode

6. CHESS DRAW IN RELATION TO THE CHESSBOXING BOUT

If a chess draw is declared in any round, there will be at most only one boxing round thereafter. If the chess draw occurs in the final round, then there will be no further boxing round, in line with the original schedule.

In the unlikely event that the chess game is drawn AND the boxing is a tie on points, then the player with the fewest chess penalties is the winner. If these are equal the bout will be declared a draw.

7. HOW CHESS PIECES MOVE “ FINER POINTS THAT CONFUSE BEGINNERS

The complete official laws of chess are on the website of FIDE, the chess governing body.

The Appendix on the above link explains chess notation, and instances where blitz or rapid chess rules differ from normal long play time controls.

Castling

- Castling is one move
- The king always moves 2 squares, and the rook then goes next to the king on the other side.
- All squares between king and rook must be clear. Castling cannot capture a piece.
- White Kingside castling moves the King from e1 to g1, and the Rook from h1 to f1.
- White Queenside castling moves the King from e1 to c1, and the Rook from a1 to d1.

Castling is not a legal move when:

- the king is in check
- the king moves into check
- the king crosses over a square that is attacked (many players are unaware of this subtle point)
- a piece is on a square between king and rook
- the king has previously moved, even if it has since returned to its original square
- the rook to be castled has previously moved, even if it has since returned to its original square

Pawn Promotion

A pawn reaching the eighth rank is 99% of times promoted to a queen, but it can also be under-promoted to a knight, bishop or rook.

En Passant

A special type of pawn capture. A pawn attacking a square crossed by an opponent's pawn which has advanced two squares in one move from its original square may capture this opponent's pawn as though the latter had been moved only one square. This capture is only legal on the move following this advance and is called an `en passant` capture. En passant is French for as it passes. See http://en.wikipedia.org/wiki/En_passant for visual examples.

The Bill of Rights: A Transcription

The Preamble to The Bill of Rights

Congress of the United States

begun and held at the City of New-York, on

Wednesday the fourth of March, one thousand seven hundred and eighty nine.

THE Conventions of a number of the States, having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added: And as extending the ground of public confidence in the Government, will best ensure the beneficent ends of its institution.

RESOLVED by the Senate and House of Representatives of the United States of America, in Congress assembled, two thirds of both Houses concurring, that the following Articles be proposed to the Legislatures of the several States, as amendments to the Constitution of the United States, all, or any of which Articles, when ratified by three fourths of the said Legislatures, to be valid to all intents and purposes, as part of the said Constitution; viz.

ARTICLES in addition to, and Amendment of the Constitution of the United States of America, proposed by Congress, and ratified by the Legislatures of the several States, pursuant to the fifth Article of the original Constitution.

Note: The following text is a transcription of the first ten amendments to the Constitution in their original form. These amendments were ratified December 15, 1791, and form what is known as the "Bill of Rights."

Amendment I

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

Amendment II

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

Amendment III

No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

Amendment IV

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

Amendment VI

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defence.

Amendment VII

In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.

Amendment VIII

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Amendment IX

The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

Amendment X

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

AMENDMENT XI

Passed by Congress March 4, 1794. Ratified February 7, 1795.

Note: Article III, section 2, of the Constitution was modified by amendment 11.

The Judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State.

AMENDMENT XII

Passed by Congress December 9, 1803. Ratified June 15, 1804.

Note: A portion of Article II, section 1 of the Constitution was superseded by the 12th amendment.

The Electors shall meet in their respective states and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate; -- the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted; -- The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. [And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in case of the death or other constitutional disability of the President. --]* The person having the greatest number of votes as Vice-President, shall be the Vice-President, if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list,

the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

*Superseded by section 3 of the 20th amendment.

AMENDMENT XIII

Passed by Congress January 31, 1865. Ratified December 6, 1865.

Note: A portion of Article IV, section 2, of the Constitution was superseded by the 13th amendment.

Section 1.

Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

Section 2.

Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XIV

Passed by Congress June 13, 1866. Ratified July 9, 1868.

Note: Article I, section 2, of the Constitution was modified by section 2 of the 14th amendment.

Section 1.

All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Section 2.

Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the Executive and Judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age,* and citizens of the United States, or in any way abridged, except for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

Section 3.

No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof. But Congress may by a vote of two-thirds of each House, remove such disability.

Section 4.

The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations and claims shall be held illegal and void.

Section 5.

The Congress shall have the power to enforce, by appropriate legislation, the provisions of this article.

*Changed by section 1 of the 26th amendment.

AMENDMENT XV

Passed by Congress February 26, 1869. Ratified February 3, 1870.

Section 1.

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude--

Section 2.

The Congress shall have the power to enforce this article by appropriate legislation.

AMENDMENT XVI

Passed by Congress July 2, 1909. Ratified February 3, 1913.

Note: Article I, section 9, of the Constitution was modified by amendment 16.

The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

AMENDMENT XVII

Passed by Congress May 13, 1912. Ratified April 8, 1913.

Note: Article I, section 3, of the Constitution was modified by the 17th amendment.

The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislatures.

When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the legislature of any State may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the legislature may direct.

This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

AMENDMENT XVIII

Passed by Congress December 18, 1917. Ratified January 16, 1919. Repealed by amendment 21.

Section 1.

After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

Section 2.

The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation.

Section 3.

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

AMENDMENT XIX

Passed by Congress June 4, 1919. Ratified August 18, 1920.

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.

Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XX

Passed by Congress March 2, 1932. Ratified January 23, 1933.

Note: Article I, section 4, of the Constitution was modified by section 2 of this amendment. In addition, a portion of the 12th amendment was superseded by section 3.

Section 1.

The terms of the President and the Vice President shall end at noon on the 20th day of January, and the terms of Senators and Representatives at noon on the 3rd day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

Section 2.

The Congress shall assemble at least once in every year, and such meeting shall begin at noon on the 3d day of January, unless they shall by law appoint a different day.

Section 3.

If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, then the Vice President elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case wherein neither a President elect nor a Vice President shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

Section 4.

The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.

Section 5.

Sections 1 and 2 shall take effect on the 15th day of October following the ratification of this article.

Section 6.

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission.

AMENDMENT XXI

Passed by Congress February 20, 1933. Ratified December 5, 1933.

Section 1.

The eighteenth article of amendment to the Constitution of the United States is hereby repealed.

Section 2.

The transportation or importation into any State, Territory, or Possession of the United States for delivery or use therein of intoxicating liquors, in violation of the laws thereof, is hereby prohibited.

Section 3.

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by conventions in the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

AMENDMENT XXII

Passed by Congress March 21, 1947. Ratified February 27, 1951.

Section 1.

No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President, for more than two years of a term to which some other person was elected President shall be elected to the office of President more than once. But this Article shall not apply to any person holding the office of President when this Article was proposed by Congress, and shall not prevent any person who may be holding the office of President, or acting as President, during the term within which this Article becomes operative from holding the office of President or acting as President during the remainder of such term.

Section 2.

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission to the States by the Congress.

AMENDMENT XXIII

Passed by Congress June 16, 1960. Ratified March 29, 1961.

Section 1.

The District constituting the seat of Government of the United States shall appoint in such manner as Congress may direct:

A number of electors of President and Vice President equal to the whole number of Senators and Representatives in Congress to which the District would be entitled if it were a State, but in no event more than the least populous State; they shall be in addition to those appointed by the States, but they shall be considered, for the purposes of the election of President and Vice President, to be electors appointed by a State; and they shall meet in the District and perform such duties as provided by the twelfth article of amendment.

Section 2.

The Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XXIV

Passed by Congress August 27, 1962. Ratified January 23, 1964.

Section 1.

The right of citizens of the United States to vote in any primary or other election for President or Vice President, for electors for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.

Section 2.

The Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XXV

Passed by Congress July 6, 1965. Ratified February 10, 1967.

Note: Article II, section 1, of the Constitution was affected by the 25th amendment.

Section 1.

In case of the removal of the President from office or of his death or resignation, the Vice President shall become President.

Section 2.

Whenever there is a vacancy in the office of the Vice President, the President shall nominate a Vice President who shall take office upon confirmation by a majority vote of both Houses of Congress.

Section 3.

Whenever the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that he is unable to discharge the powers and duties of his office, and until he transmits to them a written declaration to the contrary, such powers and duties shall be discharged by the Vice President as Acting President.

Section 4.

Whenever the Vice President and a majority of either the principal officers of the executive departments or of such other body as Congress may by law provide, transmit to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office, the Vice President shall immediately assume the powers and duties of the office as Acting President.

Thereafter, when the President transmits to the President pro tempore of the Senate and the Speaker of the House of Representatives his written declaration that no inability exists, he shall resume the powers and duties of his office unless the Vice President and a majority of either the principal officers of the executive department or of such other body as Congress may by law provide, transmit within four days to the President pro tempore of the Senate and the Speaker of the House of Representatives their written declaration that the President is unable to discharge the powers and duties of his office. Thereupon Congress shall decide the issue, assembling within forty-eight hours for that purpose if not in session. If the Congress, within twenty-one days after receipt of the latter written declaration, or, if Congress is not in session, within twenty-one days after Congress is required to assemble, determines by two-thirds vote of both Houses that the President is unable to discharge the powers and duties of his office, the Vice President shall continue to discharge the same as Acting President; otherwise, the President shall resume the powers and duties of his office.

AMENDMENT XXVI

Passed by Congress March 23, 1971. Ratified July 1, 1971.

Note: Amendment 14, section 2, of the Constitution was modified by section 1 of the 26th amendment.

Section 1.

The right of citizens of the United States, who are eighteen years of age or older, to vote shall not be denied or abridged by the United States or by any State on account of age.

Section 2.

The Congress shall have power to enforce this article by appropriate legislation.

AMENDMENT XXVII

Originally proposed Sept. 25, 1789. Ratified May 7, 1992.

No law, varying the compensation for the services of the Senators and Representatives, shall take effect, until an election of representatives shall have intervened.

Dear Ed,

Yeah I totally took over for Paul after he died in 1966. You got me. As you can see, we donâ€™t even look that much alike:

Before(Paul)

After(Me)

Before(Paul)

After(Me)

We aren't even the same height! What can I say, people are stupid.

Thanks for the inquiry,

William Campbell

(Paul McCartney)
